

Storyboard 1

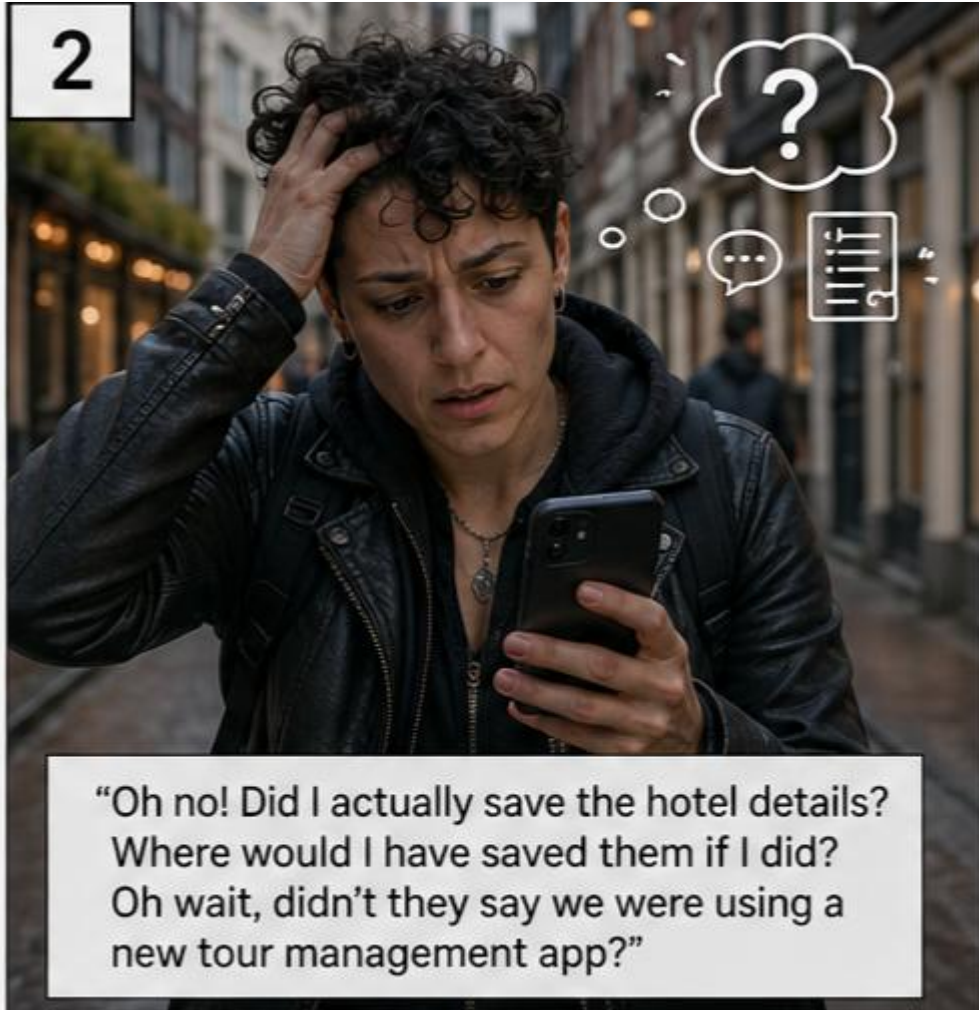

1. Carmen is on tour in Europe with their band and arrived on a later flight. They are not able to get in touch with the rest of the band and realize they aren't sure where the hotel is.

"Getting reception is always so hard when I travel internationally. I think everyone else is at the hotel already, where was it again?"

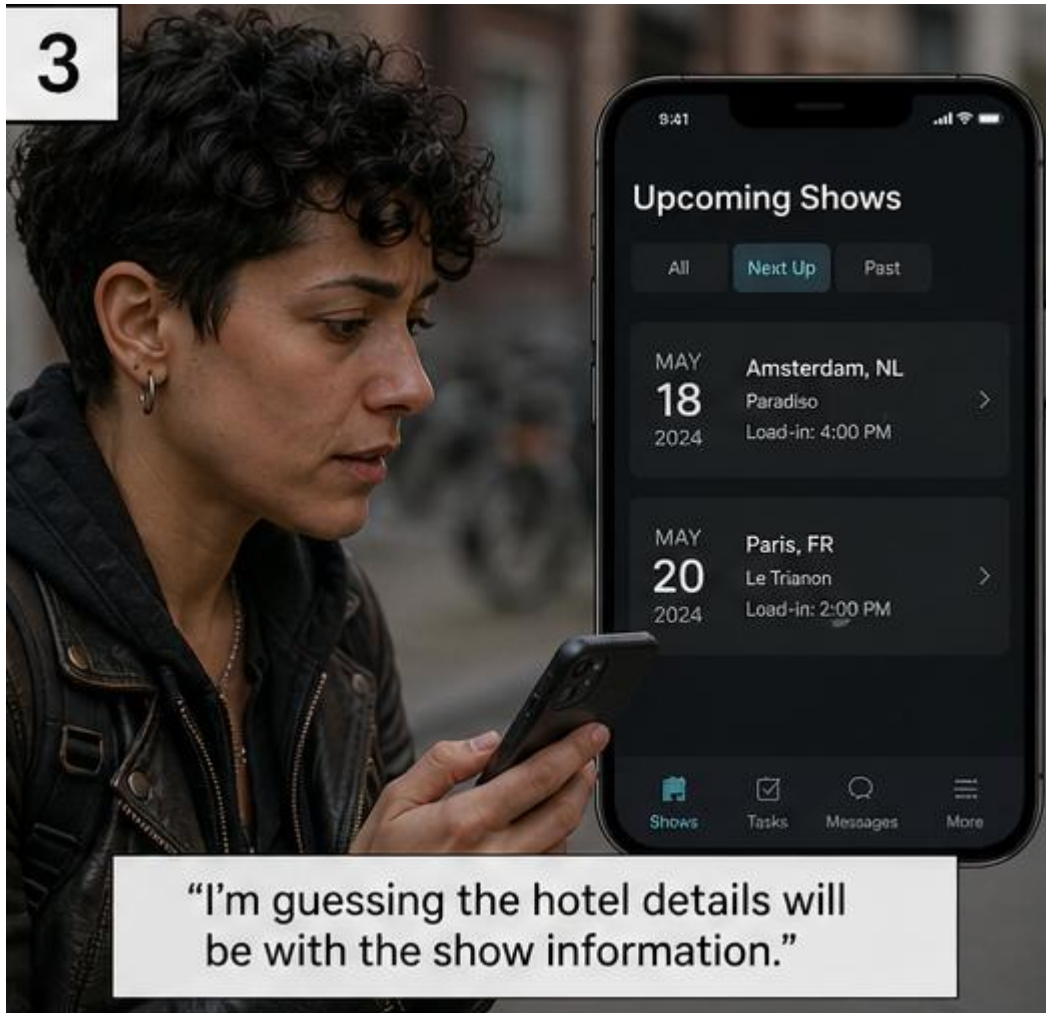

2. Carmen starts to panic, but then remembers the app the band has been using to organize tour details.

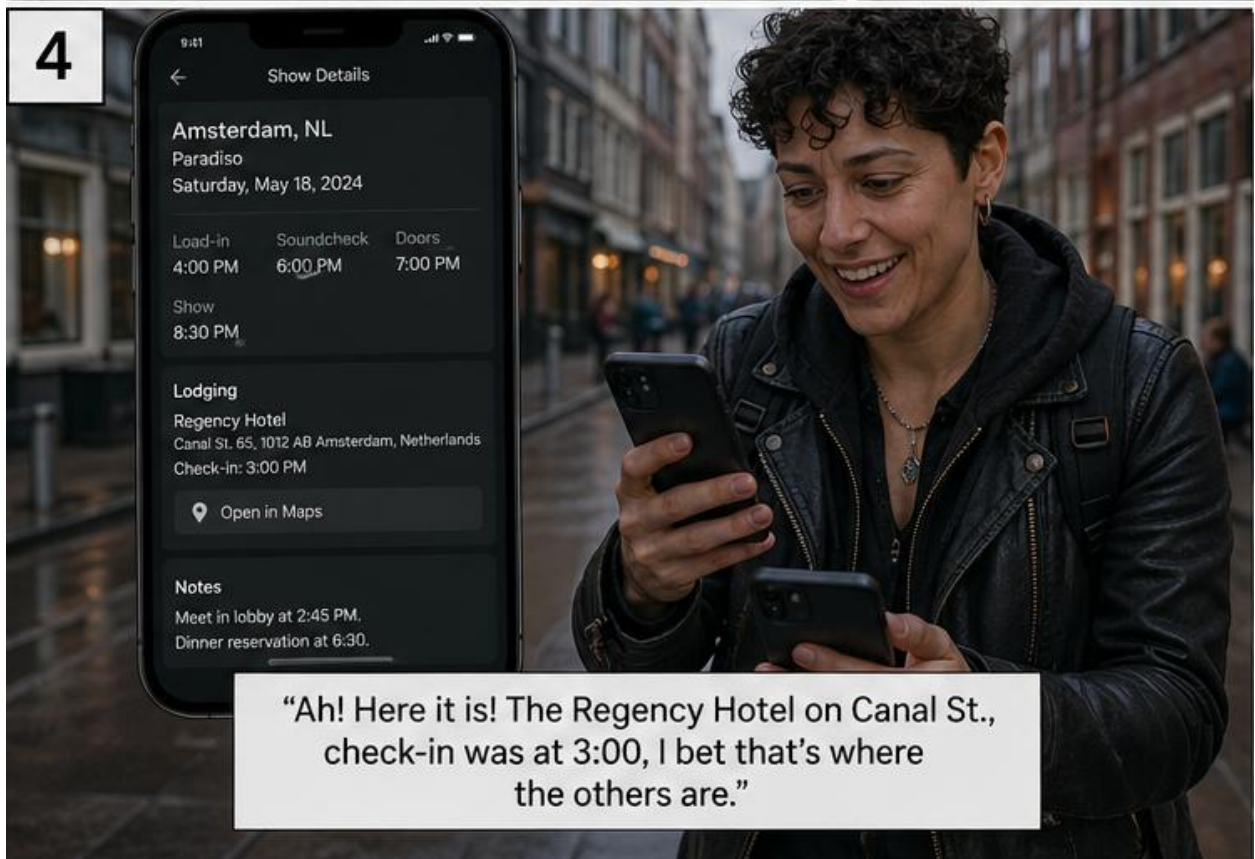

“Oh no! Did I actually save the hotel details? Where would I have saved them if I did? Oh wait, didn’t they say we were using a new tour management app?”

3. Carmen opens their tour management app and navigates to the show details page.
"I'm guessing the hotel details will be with the show information."

4. They find the lodging details they need and uses them to navigate tot the hotel.
“Ah! Here it is! The Regency Hotel on Canal St., check-in was at 3:00, I bet that’s where the others are.”

5. Carmen meets up with the rest of their band and is relieved that they were able to quickly access the information they needed through the tour management app instead of searching through old notes and texts while trying to navigate a new city.
- “I’m so glad I was able to find you guys! That new app is pretty helpful, I definitely would have spent hours wandering around if I hadn’t been able to find the hotel address so quickly.”*

6.
