

## Grid Layout 2

The screenshot displays the AccuWeather website interface. At the top, there is a banner for 'SurgeDefender' from Georgia Power. Below this is a navigation bar with the AccuWeather logo, a search bar for 'New York, NY', and social media icons. A secondary navigation bar includes 'United States Weather', 'New York, NY Local Weather 71°F', and 'Personalized Forecasts: Allergies'. A main navigation bar contains links for 'Home', 'Radar & Maps', 'News & Video', 'Hurricane', 'Climate', 'Social', and 'Watch Videos'. The main content area is divided into three columns: 'U.S. Weather Radar' with a map, 'Local Weather' for New York, Miami, and Los Angeles, and 'Trending Now' with two news items. A 'TRENDING' section at the bottom features a video thumbnail about Reed Timmer.

U.S. Weather Radar	Local Weather	Trending Now
	<b>NEW YORK</b> 71° RealFeel® 73° Cloudy	Watch as fire burns this tree from the inside
<a href="#">More Maps</a>	<b>MIAMI</b> 87° RealFeel® 94° Sunny	Whale watchers treated to rare killer whale sightings
	<b>LOS ANGELES</b> 86° RealFeel® 93° Sunny	
<b>TRENDING:</b> Reed Timmer battles Hurricane Nate in Mississippi; Massive air balloon festival in New Mexico		

The grid layout of this site is simple and expanding. Appears to be 1x3 configuration with the third section divided into 1x2 and expanded to cover all the 'top stories'.
