Scenarios and Task Diagram

Assignment #2:

Part #2

Scenarios:

#1 Introduce on-line activities to generate interest in getting together, different ways to also gather information about the likes of the family members to make adjustment to the site to draw more awareness and attention (like polls and quizzes). Appeal to the younger audiences while keeping it 'PG'. On-line logs about family activities and such with links to other social media like as Facebook, Instagram, Twitter, and so forth.

#2 Have a memorial page (perhaps with music), showing all the people that have passed and where they are buried. If they have a family cemetery and they would like to include with pictures of that. Also, maybe have a slide show that could be added to it. Another suggestion was made to include a section for newborns. Include the family tree in a 'fixed' format to keep it simple.

#3 An outtake on the family tree, would be to have a historic view (perspective?) of how they came to be here in the USA and their journey through the generations. Use the feedback from the polls, quizzes, and news letters to build or correct information in the history. Show migrations from the central family home to current locations (to generate that 'get back to our roots' sensation).
