

Contractor Companion A Building Material Price Tracker

Storyboard

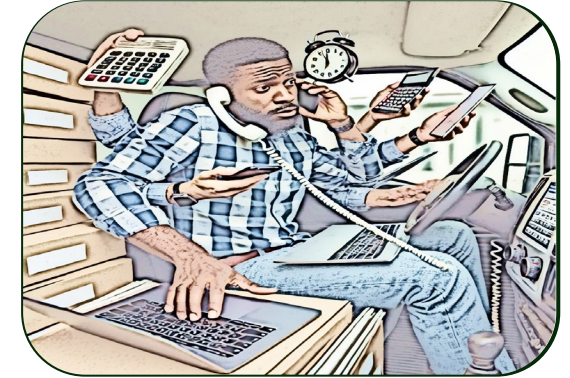

Jeryl Miles INFM482 Spring 2025

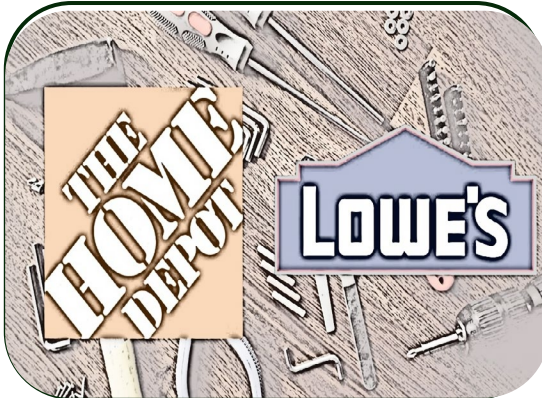

Meet John. John is a residential repair contractor.

He needs to get a quote to a customer stat.

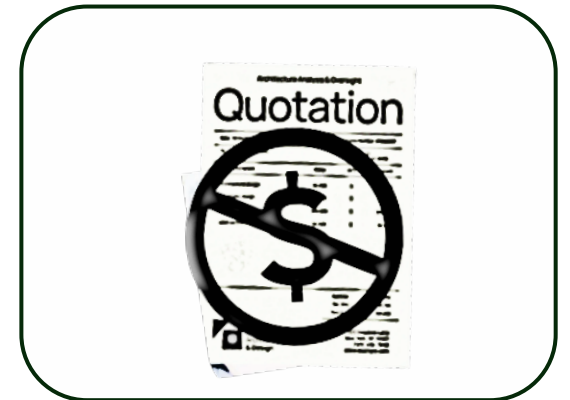

He is frustrated with wasting time calling multiple suppliers.

Manually comparing prices across different stores

Sketchy material availability leading to costly quote delays

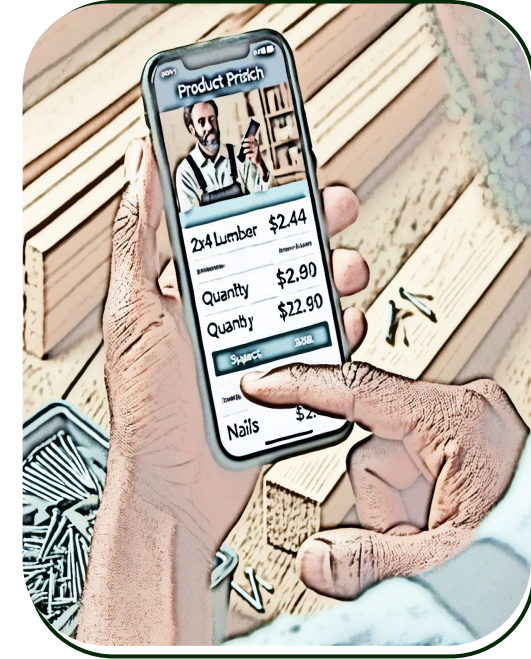

Lost productivity & inconsistent pricing affects his bottom line.

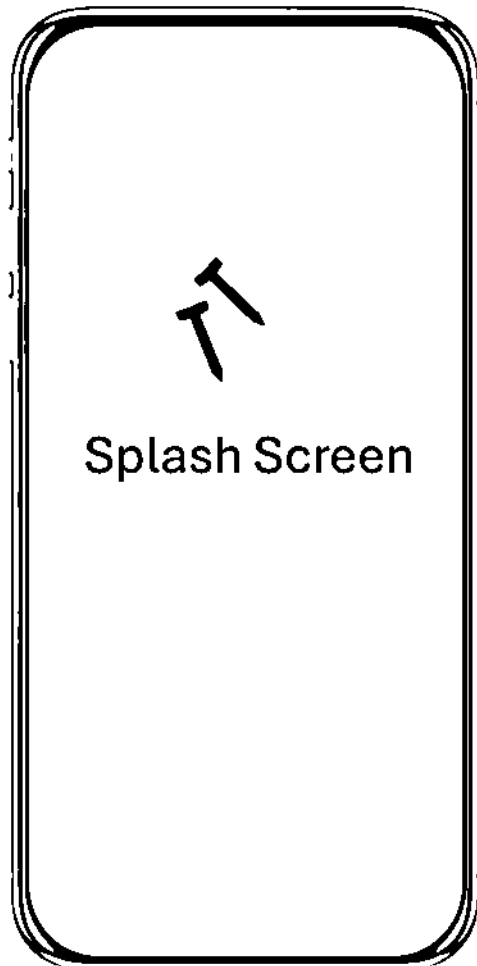

**John needs a one-stop
search tool for building
material prices**

**Live price comparison from
multiple local suppliers**

**And a streamlined order and
quote generation process.**

Open the app

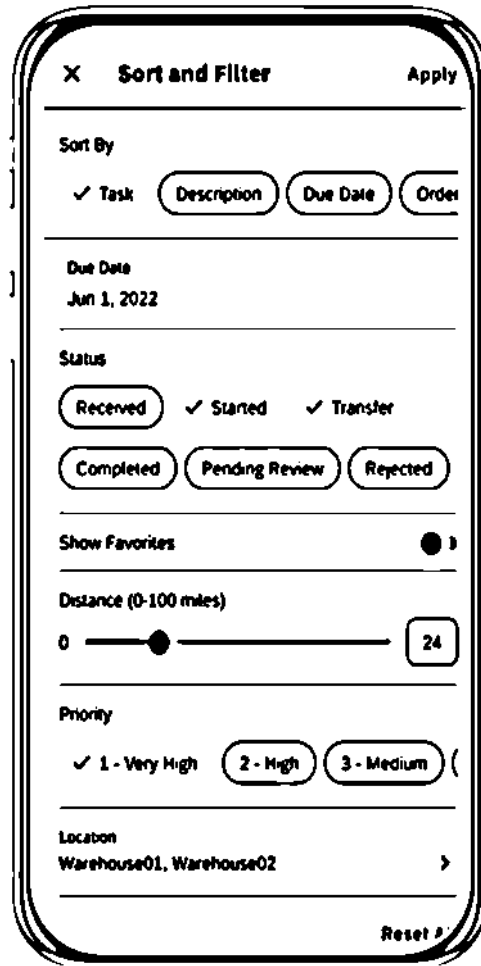

Log in using a simple interface

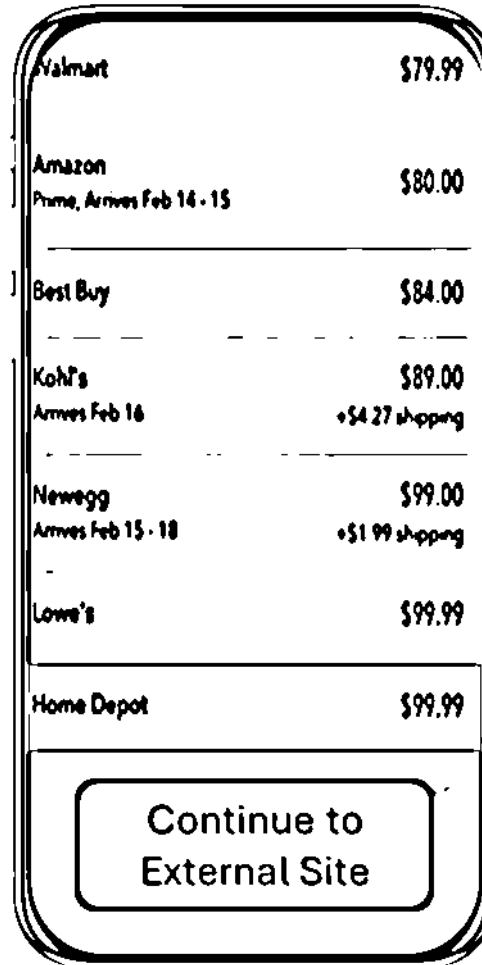

Enter materials like 2x4s & construction nails into the search.

Displays comparison chart with supplier prices & availability.

Filter to sort by price, location & availability.

Selects product and clicks link to place an order directly from the retailer's site.

Exports selected items and prices to create an accurate customer quote.

**Thanks to the Contractor Companion
App, John's quote was on time and
priced right.**

**\$\$ Cha Ching \$\$
John can now make it rain!**
