System Specifications

1. **Supported Browsers**: The web app is compatible with the latest versions of popular browsers such as Google Chrome, Mozilla Firefox, Safari, and Microsoft Edge.
2. **Operating System Compatibility**: The web app is platform-independent and works seamlessly on Windows, macOS, Linux, and other operating systems.
3. **Internet Connection**: The web app requires a stable internet connection for real-time data synchronization, updates, and cloud storage of financial information.
4. **Browser Requirements**: Users must have JavaScript and cookies enabled in their browsers to ensure full functionality of the web app.
5. **Responsive Design**: The web app features a responsive design that adapts to various screen sizes and devices, including desktops, laptops, tablets, and smartphones.
6. **Security Measures**: The web app employs industry-standard encryption protocols (e.g., SSL/TLS) to secure data transmission and storage. User passwords are stored securely using salted hashing techniques.
7. **Data Storage**: Financial data entered by users is securely stored in a cloud-based database with robust backup and recovery mechanisms in place.
8. **Accessibility**: The web app complies with accessibility standards (e.g., WCAG) to ensure that users with disabilities can navigate and use the app effectively.
9. **Performance Requirements**: The web app is designed to load quickly and respond promptly to user interactions, with minimal latency and downtime.
10. **Third-Party Integrations**: The web app may integrate with third-party services such as bank APIs, payment gateways, and accounting software to facilitate seamless data import/export and transaction processing.
11. **Scalability**: The web app architecture is designed to scale horizontally and vertically to accommodate increasing user loads and data volumes over time.
12. **Maintenance and Support**: Regular maintenance and updates are performed to address security vulnerabilities, performance optimizations, and feature enhancements. Users can access online help resources, FAQs, and customer support for assistance with technical issues and account inquiries.
