## **Project planning report**

## **Summary**

The project planning report will specify the process of the Capstone Tea Project. The project has begun production in October 22 and will end in December 2022. It will contain a number of tasks to complete during the phases of software development which are under; planning, design, development, and release.

## Purpose

The purpose of project planning is to execute the Capstone Tea Project within a certain timeframe. The Capstone Tea project will help determine the success of its usability with the support of human reactions. There will be a number of tasks to complete from the start date to the end date, duration of days, and the percentage of tasks finished.

## **Objectives**

The SMART method is used to define objectives for the Capstone Tea Project.

- To create a responsive website that will determine its usability success with the help of human interaction.
- There will be a number of tasks and phases to complete the project.
- About 5 of the tasks have already been completed. Site Structure, Storyboard, Prototype, and Questionnaire/Task list.
- Designing the responsive site will take about 2 or 3 days to complete. Front end takes a bit longer than back end.

• The Capstone Tea Project should be completed by December 2022

# Target audience

The Capstone Tea Project will be targeted towards customers who are tea drinkers.
