

# **Final Work**

## Final Work

I plan to create a website for users to see shoe updates and buy shoes from the best brands we know. I've already created different versions of Tevo Kicks, and it will be fun to see Tevo Kicks as a website. I will make it so that users can log in, log out, and sign up for the website. I also have a few more things to do with the website, but this is the primary plan.
